

More Than This

Robbie Williams

Go
Go, go

I said that we can't fly
She held my hand and said, "Let's try"
But I'm not that kind of guy
She said, "Labels drag you down
Let them go before you drown
Take your shoes off, stick around" (Go)

Yesterday, so heavy
Why don't you put it down?
You won't disappoint me
But you should know by now

You're more than this
You're better at life
Than you've been letting on
And I don't know why
You're more than this
You are what it is
The world is at your fingertips
And there's more than this

So I took a chance
Let her teach me how to dance
Through circumstance (Go)

Yesterday came quickly
Way too quick for me
She told me I should close my eyes
'Cause only then I'd see

You're more than this
You're better at life
Than you've been letting on
And I don't know why
You're more than this
You are what it is
The world is at your fingertips
And there's more than this (Go)

(Go)
Don't know what's the best part (Go)
The kind eyes or soft heart
Lord, give me enough time (Go)
To figure it out, to figure it out

You're more than this
You're better at life
Than you've been letting on
And I don't know why
You're more than this
You are what it is
The world is at your fingertips
And there's more than this

More than this
(Go)
More than this
(Go)
