

# Run It Wild

Robbie Williams

Your mother's downtown and there's no one at the station  
Steal your daddy's money and pick a destination  
Run it wild, run it wild  
Take the money and run it wild  
It's another chance for another generation  
When you kicked up your heels, you picked a vocation  
Run it wild, run it wild  
Like we used to, run it wild

When you were running wild  
When you let your love run wild  
When you let your love run wild  
My run it wild, run it wild, run it wild, baby  
Run it wild  
Go out and run it wild

Run to, run to the ocean  
Run to the ocean  
Run away as fast as you can from here  
It's not enough  
Run to, run to the ocean  
Run to the ocean  
Run away as fast as you can from here  
While you're still young

When you were running wild  
When you let your love run wild  
When you let your love run wild  
My run it wild, run it wild, run it wild, baby  
Run it wild  
I'm losing hope in my heart  
That the end is better than the start  
We get hung up on the past, nothing lasts  
You'll get lost, you'll get caught  
They'll tell you everything's your fault  
But you're only a child for a while, and you got style  
Go out and run it wild

Julia  
Julia  
Are we gonna crumble under your weight?  
Lord, I hope so  
Julia  
Julia  
Are we gonna crumble under your weight?  
Lord, I hope so

You would run it wild  
When you let your love run wild  
When you let your love run wild  
My run it wild, run it wild, run it wild, baby  
Run it wild  
I'm losing hope in my heart  
That the end is better than the start  
You get hung up on the past, nothing lasts  
You'll get lost, you'll get caught  
They'll tell you everything's your fault

But you're only a child for a while, and you got style  
Go out and run it wild
