

# Weakness

Robbie Williams

Ran away from silence to the fury  
Hope I find someone there that could cure me  
I went to the world  
My weakness got stronger every day

Though my chequered history's appalling  
In the line of beauty I lay fallen  
I found a girl  
She's my weakness, gets stronger every day  
Every day

I can't promise I will love you for the rest of your life  
But you know I'm gonna be there for the rest of mine  
We pour our hearts into a box  
Seal that box with chains and locks  
And then we hide it  
Don't dare look inside it  
In case the feeling shows  
You could spend all your life with that damn box  
Trying to keep it closed

Went around the world in 80 lovers  
Don't think really anyone recovered  
Go see the world  
Let your weakness get stronger every day  
Every day

I took photographs of mars  
Left my footprints on the moon  
I wanted the universe  
Then they sent you

We pour our hearts into a box  
Seal that box with chains and locks  
And then we hide it  
Don't dare look inside it  
In case the feeling shows  
You could spend all your life with that damn box  
Trying to keep it closed

We pour our hearts into a box  
Seal that box with chains and locks  
And then we hide it  
Don't dare look inside it  
In case the feeling shows  
We could spend all our lives with that damn box  
Trying to keep it closed
