

Can't Make Me Change

Robert Cray

You can't make me change
How I feel today
You can waive your hand
Just push me away
Your love brought me here
Thought we had a deal
Now you change your mind
I need time to heal

You can call me names
That I expect from you
But, there's just one thing
For you do what you do

You can't make me change
How I feel about you

You taught me a lesson
Cause before I was just guessin'
That you were mine
All mine alone
But I found out
That you were out messin' me around
I didn't know

When you tell lies
You're tellin' on yourself
I'm already hurt now baby
Uh, thanks for your help

But, you can't make me change
How I feel about you, you, you

You taught me a lesson
Cause before I was just guessin'
That you were mine
All mine alone
I found out
You were out messin' me around
And I didn't really know

Oh, when you tell lies
You're telling on yourself
I'm already hurt now baby
Huh, thanks for your help

But, you can't make me change
Can't make me change
How I feel about you
No, no, you can't make me change
How I feel about you
No

You can't make me change
How I feel about you
No, no
