

Just How Low

Robert Cray

Why you wanna pull us down and separate
We come with all kinds of customs and colors and features
That's what makes our country great
United, do you know what that means?
Why you wanna go around from town to town
Dousing us with gasoline

One never knows
Just how low
Someone might go

You called out the president, cause you didn't like
His name (Huh!)
You had a fit, said he wasn't legit, made him
Show his birth certificate
You could be a hero, then maybe not
So if you go to war you better make sure
That you never get caught

One never knows
Just how low
Someone might go

How you gonna fix this mess, that you created?
Why you wanna raise up the dead?
If you are not a "10" or you're disabled
You'll just never forget all that he's said

Oh, if you wanna build a wall, build it around
Yourself
Then you can sit up in your tower
And we'll all have a toast to your health

One never knows
Just how low
Someone might go, ooh

One never knows
Just how low
Someone might go

One never knows
Just how low
Someone might go

Ooh
