Oh, beautiful love You don't bother me I don't need your time, your company

And now that it's over
And I'm strong enough to see
You used to move the mountains, baby
But now you just don't move me

People say when you're lonely You're after the first one you see I remember a long time ago That used to be me

I'm glad that it's over
And I'm strong enough to see
You used to move the mountains, baby
But now you just don't move me

You know that love Can be such a sweet thing That we all get messed up with sometime

People lose a lot of sleep over a simple way to solve their pro blem
But I'm not worried
Cause I've solved mine

Oh, beautiful love
Now that I'm finally free
I won't be around for you to hurt me

I'm so glad that it's all over And I'm strong enough to see You used to move the mountains, baby But now you just don't move me

No you won't hurt me No
