

The Way We Are

Robert Cray

Turn around and close the door
Shed your sadness to the floor
Doesn't matter what's been said
That's just the way we are

Never mind who's wrong or right
Cause we're together here tonight
And what be brought into the light
Makes us the way we are

Love has a way of always
Testing you
We've built a home of trust, we can always
Come back to

Can you imagine us today?
If all our dreams were locked away
And we weren't strong enough to say
That's just the way we are

Love has a way of always
Testing you
We've built a home of trust, we can always
Come back to

Imagine us today
If all our dreams were locked away
And we weren't strong enough to say
That's just the way we are
And together we will stay
The way we are

Way we are

Way we are
