

# Worry

Robert Cray

I like to be real cool  
And say it doesn't bother me  
But every night she is out, walking' the streets  
And I worry

She can lead her live the way that she wants  
It is not for me to say, but I worry  
It is not for me to say, but I worry

Worry, Worry,  
About the world that she lives in  
Worry, Worry,  
That I could lose her in the end

I keep thinking, that she's okay  
But it's driving me crazy  
It is not save to be out on the streets  
And I worry

She could be lost, the danger is there  
There's trouble, trouble everywhere  
Trouble, trouble everywhere

Worry, Worry,  
About the world that she lives in  
Worry, Worry,  
That I could lose her in the end

She is not a lover  
She is just a friend  
I can't ignore it or I just pretend  
I can't think of myself and  
She's all alone, with no one to wait, for her to come home

She's just a child in every father's eyes  
Just can't help it, but I worry  
I can't help it, that I worry

Worry, Worry,  
About the world that she lives in  
Worry, Worry,  
That I could lose her in the end

Worry, yeah  
I worry  
Worry, worry  
I worry  
Worry  
I worry
