

# Better Days

Robert DeLong

Paint my number  
Hear the color  
Push it further  
I can feel  
I can feel  
I can feel

Your pulse beating slow  
Blurred visual  
Pull off the chain  
I, I see the glow  
Take off our clothes  
And give them away

[Chorus:]

Better days about to come our way  
Every day, a little more decay  
Live it up for the better days  
Don't you know you gotta love the pain  
Don't dance alone, I won't make the space  
Live it up for the better days

Live it up for the better days [2x]

A little darker  
But not forever  
Sisters, brothers, oh  
I can feel  
I can feel  
I can feel

Your pulse beating slow  
Blurred visual  
Pull off the chain  
I, I see the glow  
Take off our clothes  
And give them away

We [?]  
Change in the lead,  
Pay for your face  
So we, we'll take the game,  
And give it away, give it away

[Chorus]

Live it up for the better days [2x]

Better days on the way, on the way  
Better days, I'm awake, I'm awake  
Better days on the way, on the way  
Better days, I'm awake, I'm awake, I'm awake

[Chorus 2x]
