

Don't Be Afraid (We're All Gonna Die)

Robert DeLong

Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die

When you dosed all our drinking water
The party got real strange
I didn't care that I didn't know my name
And you were huddled in the basement
Clutching to your legs
You said you're dying, but all that I could say was...

Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die

And all the people in my age group
Have a kid and car
But I'm still freelance
Broke and Slinging art
And when my friend said hey there man
Aren't you worried how this ends? I said whose to worry?
At that point I'll be dead

Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die

No one gets high
In the same river twice, no oh but we float
Riding it down to the ocean
Going, going, gone
We fade into the sunset
Oh but we're home
And finally we can be no one

Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid
We're all gonna die
Don't be afraid

We're all gonna die

(Nothin' to run from...)

Climate change atomic weapons

Famine and disease

Politicians feeding

Corporate greed

The modern age will make us older

So it's longer till we leave

But rich or poor goes out the door

When you're in the morgue, when you cannot breathe

Don't be afraid

We're all gonna die

Don't be afraid

We're all gonna die

Don't Be Afraid

We're all gonna die

Don't Be Afraid

We're all gonna die

(Nothing to run from...)

No one gets high in the same river twice, no, oh but we float

Riding it down to the ocean
