

Information Overload Blues

Robert DeLong

I've got the information overload blues
They got me learning an alternative truth
I'm learning theories about Putin and God
I'm learning shit I didn't know that I want
So don't be so sad
Just plug in and get mad, ya

I've got the information overload blues
I've got my made-to-order personal news
I heard they're burning down the rose city streets
That doesn't sound like they're nice people for me
So don't be so sad
Just plug in and get mad, ya

Oh, you don't see it, you don't see
'Cause you're asleep, you're just a sheep
You're not reading, you're not seeing
The research from my faultless feed

I've got the information overload blues
It's got me learning crazy shit about you
I know you're working with a secret cabal
You're hiding kids beneath the Washington mall
I haven't seen it ah
But I'm bored and I'm mad, ya

I got the information overload blues
They got me learning an alternative truth
I'm learning so much I can no longer think
But where I'm headed I can still drive and drink
So don't be so sad
Just plug in and get mad, yeah
