

Possessed

Robert DeLong

Chain me, bind me, set me free
Make me stay or let me leave
Always something up your sleeve
Jesus Christ, you're killing me

Say you won't, then say you will
Fabricate what I should feel
Drink your disco, take your pill
Tell me, are you even real?

Head or heart
Friend or enemy
From the start
You're the end of me
In my mind
Mind-controlling me
A thousand volts
Of your insanity

You got me possessed
Possessed by you
You got me possessed
Possessed by you

I feel you inside my bones
Your salvation overload
Swimming through your chemicals
Jesus Christ, I might explode

Head or heart
Friend or enemy
From the start
You're the end of me
In my mind
Mind-controlling me
A thousand volts
Of your insanity

You got me possessed
Possessed by you
You got me possessed
Possessed by you

I'm in your lucid dreams
You control everything
I'm in your lucid dreams
Come take control of me

Head or heart
Friend or enemy
From the start
You're the end of me
In my mind
Mind-controlling me
A thousand volts
Of your insanity

Head or heart
Friend or enemy
From the start
You're the end of me
In my mind
Mind-controlling me
A thousand volts
Of your insanity

You got me possessed
Possessed by you
You got me possessed
Possessed by you
