

SLOWLY

Robert DeLong

I'm on my knees
So let me down slowly
So let me down slowly
(Let me down, let me down)

Say what you wanna say
But don't you come down too hard on me
Just say it
Oh
Just say it
Oh

Tell me what's on your mind
It's my funeral, could you please be kind?
So say it
Oh
Just say it
Oh

I already know what's in your head
By the time you spit it out we could both be dead
By the time you spit it out we could both be dead
By the time you spit it out we could both be

I'm on my knees
So let me down slowly
So let me down slowly
(Let me down, let me down)
Good guys still bleed
So let me down slowly
So let me down slowly
(Let me down, let me down)

(Let me down, let me down)
(Let me down) slowly, slowly, slowly

I gave you time and space
I covered your lies just to save you face
I'm patient
Oh
So patient
Oh, yeah

I want only good things for you
I can see behind your eyes, there's a hidden truth
We're fadin'
Oh
We're fading
Oh

Between an empty bottle and a cigarette
I heard what you were thinking, it was all subtext
I already know what's in your head
By the time you spit it out we could both be dead

I'm on my knees
So let me down slowly

So let me down slowly
(Let me down, let me down)
Good guys still bleed
So let me down slowly
So let me down slowly
(Let me down, let me down)

(Let me down, let me down)
(Let me down, let me down)
(Let me down, let me down)
(Let me down, let me down)
(Let me down) slowly
