

Better Than I Treat Myself

Robert Finley

Oh yeah

You don't have to be perfect
And you don't have to be fine
I'm just lookin' for someone
That I can call mine, all mine
You just got to love me
Would never put me on the shelf
I'm looking for somebody
Treat me better than I treat myself

I don't need your richness
And I don't need your fame
I just need someone to answer me
When I call your name
I'm just lookin' for someone
When I need a little help
I'm just lookin' for somebody
Treat me better than I treat myself

I'm lookin' for somebody gonna treat me right
Someone to have, to hold me tight
Tell me everything will be alright
Don't mind making sweet loving every night

If you say that you love me
I don't need nobody else
See, I'm just looking for somebody
Treat me better than I treat myself

I'm lookin' for somebody, treat me right
Someone to have that hold me tight
Tell me everything gonna be alright
And don't mind making a little love at night

If you say that you love me
I won't need nobody else
I'm just lookin' for somebody
Treat me better than I treat myself

I'm just looking for somebody
Treat me better than I treat myself
