

Lucky Day

Robert Finley

One day, I had to sit myself down
I had to think about it, about tomorrow
And where I am right now
And after all this traveling all over the world
I still haven't find the right girl

That's when you walked in the room
I remember, it was early one Saturday afternoon
And that look on your face told me
This is my lucky day (My lucky day)

The first time I saw your pretty smile
I just stood there and stared at you for quite a while
Cause I knew, oh I knew, I just knew
This was my lucky day (My lucky day)
Lucky day

If you tell me that you understand
If you just let me put this ring on your hand
Then I'll know that the truth
That this was my lucky day (My lucky day)
Thank you, baby
