Make It With You

Robert Finley

Have you ever tried really reaching out for the other side
I may be climbing on a rainbow but girl here I go
Dreams are for girls who sleep
Life is for us to keep

But if you're wondering what this song is leading to
Oh, I wanna make it with you
I really think that we can make it

No you don't know me well
But every little thing girl, time will tell
If you believe in love like I do, time will show us through
Life could catch all alone
And love could be right or wrong

But if you're wondering what this song is leading to
Well I wanna make it with you
I really think that we can make it

We could make it
Make it baby
We could make it, we aught to try
