

My Story

Robert Finley

I'm gonna tell my story
As long as the Lord allow
I know it won't make no difference
But I'm gonna tell it anyhow

Cause if my mom and dad could see me
I know they'd be so proud
Looking down from heaven
And smiling on me now
Smiling on me now

You're never too young to dream
Never too old to live
Reach out and hug the ones you love
Cause it's never too late to give

When I was a baby
I really didn't understand
But now my eyes are open and I see it as a man
I see it as a man

We got to teach
Our children how to fly
So they can reach the stars in the sky
Cause there's one thing I know
That dreams do come true
That's why I tell my story
So you can start dreaming too

If my mom and dad could see me
I know they'd be so proud
Looking down from heaven and smiling on me now
Smiling on me now

We got to teach
Our children how to fly
So they can reach those stars in the sky
Cause it's one thing I know
That dreams do come true
That's why I told my story
So you can start dreaming too

Children, that's why I tell my story
So you can start dreaming too
