

You Got It (And I Need It)

Robert Finley

The way I see it, baby, you got what I need
And you need what I got
And you don't worry about being short changed, baby
'Cause daddy packin' a lot

And you got it and I need it

Been lookin' for you a long time
Been lookin' for you, only thing on my mind

You must be tired of being alone
Your man is gone and he ain't never comin' home
You know as well as I do
That life must go on
Don't worry 'bout what people say, girl
We gotta be strong, 'cause

You got it and I want it
You got it and I want it

We can't be worried 'bout what people may say
'Cause the people gonna talk about us anyway
I know you're tired of being lonely, tired of being by yourself
We gotta do what we got to do, we don't have much time left, hurry baby, hurry

You got it and I want it
You got it and I want it

You got it and I want it
You got it and I need it
