

About me alone

Robert Gawliński

When you look at me and I feel you fear
Same as mine from unknown
Don't know what's going to happen with us
And I don't know much about me alone

See how many people are lost in the dark
Where are their dreams when nightmares are away?
Don't know what's going to happen with us
And I don't know much about me alone

But please, I ask, believe when I say
Least important life is the future day
I believe that love forever last
Though sometimes evil shadows may cast

Look how many people are lost in the dark
Their homes are gone, they don't see a spark
So if beauty lives within us
Let's give it strength and let it last

But please I ask, believe when I say
Least important life is the future day
So if beauty lives within us
Let's give it strength and let it last
