

# A Still Mind

Robert Glasper

Left is right and up is down  
I finally got my feet planted on solid ground  
Hopefully no one don't try to come mess up my balance  
Balance  
Balance  
I don't want to see my people struggle  
I don't want to see my people struggle  
We all do, but our pain can't heal  
Unless I must be still  
So that's all I'm on for now, whoa

Hey girl, tell me how you sleep at night  
Questioning what's more than life  
Peace of mind  
And we can't go back to where we were  
No, no, no, we won't struggle anymore  
What was broken is restored  
Water from the rock, you fed me when I left  
Man up from the heavens  
Will never look back  
Never look back

Left is right and up is down  
I finally got my feet planted on solid ground  
Hopefully no one don't try to come mess up my balance  
Balance  
Balance  
I don't want to see my people struggle  
I don't want to see my people struggle  
We all do, but our pain can't heal  
Unless I must be still  
So that's all I'm on for now, whoah

Lessons were heavy, but now I've learned  
His grace is steady and now we're strong  
Morning light, peace of mind  
And we can't go back to where we were  
We won't struggle, no no no  
Anymore, anymore no no  
What was broken, is restored  
Water from the rock, you fed me when I left  
Man up from the heavens  
Never look back

Left is right and up is down  
I finally got my feet planted on solid ground  
Hopefully no one don't try to come mess up my balance  
Balance  
Balance  
I don't want to see my people struggle  
I don't want to see my people struggle  
We all do, but our pain can't heal  
Unless I must be still  
So that's all I'm on for now, whoa
