

Back To Love

Robert Glasper

We've been here so many, many times before
With the key to unlockin' an open door
Don't know why I put up a fight for
When your love is the one I'd die for
I tried escaping, it just makes me want you more

That's why I don't wanna give this up
Not tonight, tonight
Let's bring it back to love
Back to love, love

If I was never really gone
The spark pulled us to hold on
You're worth every fight
The way we hold each other there is nothin' right
Passed the test of time (Test of time, time)
Can we leave this all behind? (Leave it all behind?)

Can we get it back? Back, back, can we get it back, back?
(Oh, oh, back to love)
Back, back, can we get it back, back?
Back, back, can we get it back, back? (To love)
Back, back, can we get it back, back?
Back, back, can we get it back, back?

I don't wanna give this up (No, ooh-woah)
Not tonight (Not tonight), tonight (Tonight)
Let's bring it back to love (To love, back to love)
Back to love (Back to love), love (Back)

Oh-oh, back to love (Ayy)
Oh-oh, back to love (Back to love)
To love
Oh-oh, back to love (Back to love)
Oh, oh-oh, oh-oh, oh-oh, oh-oh
Bck to love
