

Find You

Robert Glasper

I knew all I had was you
Taught my mind to thinking that
I could go without you

Going far but going nowhere
But I found somewhere to go
I'm going home to find you

Alright cool

I knew all I had was you
Taught my mind to thinking that
I could go without you

Going far but going nowhere
But I found somewhere to go
I'm going home to find you

Going, going

Going far but going nowhere
But I found somewhere to go
I'm going home to find you

I knew all I had was you
Taught my mind to thinking that
I could go without you

But I found somewhere to go
I'm going home to find you

I knew all I had was you
Taught my mind to thinking that
I could go without you

Going far but going nowhere
But I found somewhere to go
I'm going home to find you

I knew all I had was you
Taught my mind to thinking that
I could go without you

Going far but going nowhere
But I found somewhere to go
I'm going home to find you

I knew all I had was you
Taught my mind to thinking that
I could go without you

I knew all I had was you
Taught my mind to thinking that
I could go without you

Going far but going nowhere

Going far but going nowhere
But I found somewhere to go
I'm going home to find you
