

## For Granted

Robert Glasper

I keep seeing you in my mind  
Ain't believe it all this time  
I was (I was)  
Wasn't looking for love and found you  
Now anything else won't do

You remind me of something I never had  
Life on another planet  
(I won't take it for granted)

Where the sun come after the moon  
Is how I'm chasing after you

You remind me of something I never had  
Life on another planet  
(I won't take it for granted)

I keep seeing you in my mind  
Ain't believe it all this time  
I was (I was)  
Wasn't looking for love and found you  
Now anything else won't do

You remind me of something I never had  
Life on another planet  
(I won't take it for granted)

Where the sun come after the moon  
Is how I'm chasing after you

You remind me of something I never had  
Life on another planet  
(Won't take it for granted)

Where the sun come after the moon  
Is how I'm chasing after you
