

Heaven's Here

Robert Glasper

Why am I nervous when I know how I feel about you?
It's like I'm going in circles every time I get 'round you

I'm still about you and always been about you
When I got lost in the world, that was right where I found you
And that's I'm why still about you and always be about you
It's just a moment I got with you, couldn't see me without you
So tell me, why would I try to test my luck and make it bad for myself?
And tell me, why would I ever give you up and drag myself back to Hell?
When I got Heaven here with you
When I got Heaven here
When Heaven sent you here

Can I be honest with you, babe, if I'm allowed to
But when I'm loving your surface, but deeper is where I found you

I'm still about you and I always been about you
When I got lost in the world, that was right when I found you
And that's I'm why still about you and I'll always be about you
Since the moment I got with you, couldn't see me without you
So tell me, why would I try to test my luck and make it bad for myself?
And tell me, why would I ever give you up and drag myself back to Hell?
When I got Heaven here with you
When I got Heaven here
When Heaven's sitting here
When I got Heaven here with you
When I got Heaven here
When Heaven's sitting here

Why am I nervous when I know how I feel about you?
When I got Heaven here
When I got Heaven here
When I got Heaven here
When I got Heaven here
Ah, ah, ah
When I got Heaven here
When I got Heaven here
When I got Heaven here
When I got Heaven here
When Heaven's here
