

# I Want You

Robert Glasper

Everything heavenly  
Still melody  
lullaby  
And now symphony  
All these ups and downs I swear  
I'm just trying to take it in  
I want you  
I want you  
Got me working twice as hard  
Just so I can have you heart  
change the key  
So we can sing in harmony  
I want you

I want you  
I want you  
I want you  
I want you  
I want you  
I want you, yeah  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you  
I want you
