

More than enough  
You're more than enough for me  
You are more than enough  
You are more than enough for me  
And if I was down and out  
Like a ride  
You'll pick me up  
So I put it all on the line  
And when I'm empty, I know you'll fill my cup

And I'll never let you run dry  
I can almost see the star in your eye  
And you're my high in my lungs  
It won't be  
I can't breathe  
Without you by my side  
You are more than enough  
You are, ooh, you are  
You are more  
Than enough for me  
(Baby, baby, baby, baby)
