

## Yet To Find

Robert Gasper

Starting a new page in my life  
Seeing that love has paid the price  
Got nothing to say nothing nice  
All we had is gone tonight  
How did we lose this chemistry?  
Don't you know you taught me everything?  
Well you got a way to make me happy then sad again'  
Are we stuck between wrong and right  
Either we graduate in life  
But when you fall just one time  
It plays with your mind  
Slowly giving up inside  
I feel like all this love has died  
No matter how much I've tried I have yet to find a new thing  
Every day become a night  
When will I see the other side  
This wasn't no free ride  
All we had was gone for life  
I need to get up outta here  
And find me a more even square  
You've got a way of making me happy then sad again  
Are we stuck between wrong and right  
Either we graduate in life  
But when you fall just one time  
It play with your mind  
Slowly giving up inside  
I feel like all this love has die  
No matter how much I've tried I have yet to find a new thing  
Slowly giving up inside  
I've been like all this love has died  
No matter how much I've tried I have yet to find a new thing  
Yet to find a new thing, yet to find a new thing
