

You're My Everything

Robert Gasper

Love of my life you are
Everything beautiful to me comes from you
Elevate my senses with your touch
Cause when we make love
I become something new like
Butterflies
And at first I didn't even realize
In your presence I feel like
I'm more than I was before you came
So while I'm still here
Here's my refrain

You're the air that I breathe, my universe
The one that I need, when loving hurts [?]
Long as I live, I'll put you first
You're my everything, my everything
Said I never believe I'd feel this way
Couldn't conceive then come again
Love you until I fade away
You're my everything, my everything

Love of my life you are
You devastate me every time you say my name
And when I'm in your arms I'm born again
It's like I'm transforming, not just the same
Butterflies
And at first I didn't even realize
In your presence I feel like I'm more than I was
Before you came
So while I'm here, here's my refrain

You're the air that I breathe, my universe
The one that I need, when loving hurts [?]
Long as I live, I'll put you first
You're my everything, my everything
Said I never believe I'd feel this way
Couldn't conceive then come again
Love you until I fade away
You're my everything, my everything

Cause I'll never find another like you
I would never even try to
Girl this love we have is everlasting
Boy you're all I need
You're my everything

You're the air that I breathe, my universe
The one that I need, when loving hurts [?]
Long as I live, I'll put you first
You're my everything, my everything
Said I never believe I'd feel this way
Couldn't conceive then come again
Love you until I fade away
You're my everything, my everything
