

Always You

Robert Goulet

I've looked for heaven ever since I knew
When I found heaven it was always you
I've searched for music as lovers do
When I heard music it was always you

I'd look into evening stars aglow
I know they'd show me where to go
And it was always to your arms
The times I sought romance were quite a few

Each time I fall in love it's always you
I'd look into evening stars aglow
I know they'd show me where to go
And it was always to your arms
The times I sought romance were quite a few
Each time I fall in love it's always you
Nobody new
It's always you
