

I Break Beautiful Things

Robert Grace

Wake up, pour some coffee into my cup
Take a drag, now I'm in the smile high club
Still here and it's all because of dumb luck
Therapy was too expensive, now I'm too drunk

I had it all but I lost it
Bein' awake is exhaustin'
Keep drawin' lines then I cross them
You should walk the other way 'cause

I break beautiful things
Save yourself, don't let me get too close
Don't drink the poison I bring
Leave a trail of wreckage where I go
On the nights where you're cold and you're lonely
You can miss it but don't ever call 'cause
I break beautiful things
I break, I break, I break

Take a breath
Realize you're better off in the end
You don't really want this, don't pretend
You knew how to fix it all
You're no Wizard of Oz
Never gonna change because

I had it all but I lost it
Bein' awake is exhaustin'
Keep drawin' lines then I cross them
You should walk the other way 'cause

I break beautiful things
Save yourself, don't let me get too close
Don't drink the poison I bring
Leave a trail of wreckage where I go
On the nights where you're cold and you're lonely
You can miss it but don't ever call 'cause
I break beautiful things
I break, I break, I break

I break beautiful things
I break, I break, I break
I break beautiful things
I break, I break, I break

I break beautiful things
Save yourself, don't let me get too close
