

Moving Fast

Robert Grace

You got all that class
You got my heart moving fast
So hard not to stare
You can take me anywhere
I know I should know better
But you know what to say
Tell me what you want and baby
I'll be on my way

On my way, I could come over
Get there fast like it's war and I'm a soldier
And I'm feeling nervous, and you probably heard this
But you got me struggling to get the right words (hey!)

Cause I'm a little bit shaking
And I don't know why
When will my heart stop racing?
I guess I'm just a little bit shy

And there's no consequences
I'm convinced that this could be the night
So baby if you want me, tease me
Tell me, kiss me one more time

You got all that class
You got my heart moving fast
So hard not to stare
You can take me anywhere
I know I should know better
But you know what to say
Tell me what you want and baby
I'll be on my way

On my way, we could have a party
At your front door, home alone like Macaulay
Got my good jeans on, ready for my theme song, hey
If you need somebody you can lean on

Lean on me, I've got time
Tell me girl, what's on your mind?
Do you feel the same things I do?
Can you tell me? I just need to know

And there's no consequences
I'm convinced that this could be the night
So baby if you want me, tease me
Tell me, kiss me one more time

You got all that class
You got my heart moving fast
So hard not to stare
You can take me anywhere
I know I should know better
But you know what to say
Tell me what you want and baby
I'll be on my way

On my way
Just call my name
And you know I'll be right
On my way
I'll play your games
Just to kiss those lips right
On my way
And I know it's strange
But I just can't stay away
On my way
No, I give you control

You got all that class
You got my heart moving fast
So hard not to stare
You can take me anywhere
I know I should know better
But you know what to say
Tell me what you want and baby
I'll be on my way

You got all that class
You got my heart moving fast
So hard not to stare
You can take me anywhere
I know I should know better
But you know what to say
Tell me what you want and baby
I'll be on my way

You got all that class
You got my heart moving fast
So hard not to stare
You can take me anywhere
I know I should know better
But you know what to say
Tell me what you want and baby
I'll be on my way
