

# The Good Place

Robert Grace

Well it was the start of something great  
I followed your heart to the good place  
So close together for the rest of our lives  
Married to a man who makes music at night  
Nothing could be better but I can still remember oh

Standing in the cold I wanna kiss you  
I feel it all when I am with you cause  
I, I, I, I've fallen  
Yeah I, I, I, I've fallen  
Yeah I, I, I, I've fallen in love  
Ohh I've fallen in love

And that was the end of loneliness  
I found more than a friend in the good place  
So close together for the rest of our lives  
Married to a lady gonna treat her right  
Nothing could be better but I can still remember

Standing in the cold I wanna kiss you  
I feel it all when I am with you  
Cause I, I, I, I've fallen  
Yeah I, I, I, I've fallen  
Yeah I, I, I, I've fallen in love  
Ohhh I've fallen in love

Ohh and I spy with my little eye  
A beautiful girl with such a beautiful smile  
I know what you're thinking  
Honey why don't you come and meet me

We'll be standing in the cold I wanna kiss you  
I feel it all I am with you  
Cause I, I, I, I've fallen  
Yeah I, I, I, I've fallen  
Oh don't you know I've fallen  
I, I, I, I've fallen in love
