## What Can You Bring Me

## **Robert Palmer**

When your lovin' is gone
And you can't carry on
What can you bring me
When there ain't nobody else
And you can't help yourself
What can you bring me
What can you bring me

Can you bring me that happy day
Let me know that everything is ok
Bring it strong and bring it fast
Bring it till the pain is in the past

What can you bring me, that'll unchain me What can you bring me What can you bring me baby What can you bring me

Like a man whose on that road Drivin' hard towards his goal Like I'm on my last go round My love life's lost and can't be found What can you bring me

What can you bring me

Hurry baby, don't waste time
I need somebody, help me solve this crime
Bring it strong and bring it fast
Bring it till the pain is in the past

What can you bring me, that'll unchain me What can you bring me What can you bring me

What can you bring me What can you bring me What can you bring me

Help my equilibrium baby

What can you bring me What can you bring me What can you bring me

What can you bring me
