

# Too Far From You

Robert Plant

Some nights, I don't sleep at all  
I lie awake with my eyes closed  
Some days, I'm inside a cloud  
So tired, I just float around

And I'm lost again  
I'm lost  
Too far from you

I thought time would fade your face  
Was sure that others could erase  
What my heart felt so deep, it's bronze  
Now I don't know what's going on

And I'm lost again  
I'm lost  
Too far from you

Too far from that body  
Of water  
Too far from songs that keep me dancing 'round  
Too far from that body  
Of water  
Too far from songs that keep me dancing 'round

And I'm lost again  
I'm lost again  
I'm lost  
Too far from you

Every little bit of my love  
Oh, every little bit of my love  
Keep me down again, bring down again  
Down, down, down

Every little bit of my love  
Oh, every little bit of my love  
Bring me down again, oh, down again  
Down, down, down, oh
