

Turnaround

Robert Plant

Walk around in my life
Keep your money in your hand
Look out where you're heading mamma
Don't go running blind
Shine light and strut it out
Keep your ear right to the ground
Watch out for the strange cats
When the strange cats crawl around

Keep your eyes wide open
Hold your head up high
You are now a stranger here
So much changes with the side
Run out of fortune
She would lend a helping hand
Do not turn your back on the lady
When the lady comes around

Don't turn around
Just look away
Don't turn around
Just look away

Dancin' down main street
And it's good to the stroll
Ain't time to look around
It's time to get out the hole
No one cares about the fool
Who longs to find the gold
A thought to own a chance to plan
and sacrificed his soul

Don't turn around
Just look away
Don't turn around
Just look away

Then you find it's up to you
When you'll know you've got it
Then you're glad to could be true
Then you'll know you've lost it

Paper lap but I did find
Your money's in control
Just bide your time a second more
And it's mine before you go
Stop a while to count the tears
In view from afar
The pain of love is put aside
The time for healin' starts

Don't turn around
Just look away
Don't...

Then you find it's up to you
When you'll know you've got it

Then you're find to could be true
Then you'll know you've lost it

(An' an' an' an' an' an' an')

And you've got it

An' and he's got it

Aw you got it

You got it

You've got it

We got it

They got it

We got it

Everybody's got it

Oh

But keep yo' money in yo' hand

Ah no...
