

# Modern Madness

Robert Tepper

Hey you wanna make a deal  
Cast a spell on this empty feeling  
'Cause this tough love is a hard track  
But don't bend, baby, don't turn back

Every time you feel you got no more to give  
Just remember that it's always hard to live in this

Modern madness  
We face it every day  
Each in our different way  
Modern madness  
This cold reality  
I need you close to me

We could talk, talk for days  
Comprehend our different ways  
But what our hearts want, yeah, the world attacks  
I know it's so unfair but that's the facts

There are times that I feel that both of us are so strong  
Times I feel that we just don't belong in this

Modern madness  
We hold it in our hands  
Though we don't understand  
Modern madness  
This cold reality  
It's got the best of you and me

Don't always want to face it  
Sometimes  
Wish we could erase it  
All the dark corners  
All the stone walls  
All of the things  
That make us feel small

There are times that I feel that both of us are so strong  
Times I feel that we just don't belong in this

Modern madness  
We hold it in our hands  
Though we don't understand  
Modern madness  
This cold reality  
I need you close to me

Modern madness  
Oh yeah, yeah  
Modern madness  
Oh oh yeah
