Restless World

Robert Tepper

There's a strangeness in the air
I grace the night with a devastating stare
The streets cry
I'm moved by the sounds
Of this restless world

There's a strangeness in the air
I grace the night with a devastating stare
The streets cry
I'm moved by the sounds
Of this restless world

Drums pound out a beat
As bodies fade into a never-ending heat
The only question how long can you maintain
In this restless world

Some they go in circles
Some they go insane
Some masters of the universe
Some dance inside the rain
Love is always hidden
Like a precious pearl
In this restless world
Yeah, yeah, yeah, yeah

Shadows hit the floor
Like ancient fires
Burning down my door
A restless spirit
Looking for a chance
In this restless world

Things I should have done
Move around me like angels on the run
It's not desertion
I just want to live
In this restless world

Some dying to remember
Some living to forget
Some gunslingin' fool
Looking for a sure bet
Love is always hidden
Like a precious pearl
In this restless world

In this restless world
Yeah, yeah

Some dying to remember
Some living to forget
Some gunslingin' fool
Looking for a sure bet
Love is always hidden
Like a precious pearl
In this restless world

A restless spirit
Looking for a chance
In this restless world
Watch out!

It's not desertion
I just want to live
In this restless world
