

# Sing For Me

Robert Tepper

I was moving around like a modern day rocket  
When this old man he comes up to me  
He looked tired and worn  
Had dark rings around his sockets  
And he spoke very gracefully

He said there was a time I was just like you  
You might say I'm a hero  
There was a time  
I could touch the new  
Now I'm back to zero

Please sing for me  
Once I belonged to the future  
Please sing for me  
I have to bring this world along  
I was once so strong

Now I faced that old man and said  
You must be crazy  
What's become of your hopes for mankind  
There are things in my life  
That I'll never realize  
'Cause your fears  
Have all become mine

This is my time  
I won't be like you  
Don't pretend I'm your savior  
This is my time  
I must start a new  
Do me one last favor

Please sing for me  
'Cause I belong to the future  
Please sing for me  
I've got to bring this world along  
I must be strong, yeah

Please sing for me  
'Cause I belong to the future  
Please sing for me  
I've got to bring this world along  
I must be strong, yeah

Please sing for me  
'Cause I belong to the future  
Please sing for me  
I've got to bring this world along

Please sing for me  
Sing for me  
Sing for me, yeah, yeah, yeah, yeah  
Please sing for me  
Sing for me  
'Cause I belong to the future  
Please sing for me

Please sing for me
