Your Love Hurts

Robert Tepper

I can't nail you down
'Cause I don't know what you're gonna do
You always hesitate
You have your mind made up for you
Is this some mission of mercy
Some overdrive dream
Keep your emotions
Hidden and clean

Your love hurts
Your love hurts
Better go and find another
Your love hurts
Your love hurts
Give me time to recover

I can't bend for you
'Cause I don't know how far to go
You make me crazy, crazy
Too much about you that I just don't know
Stripping me down to a restless heart
Bringing the night, tearing me apart

Your love hurts
Your love hurts
Better go and find another
Your love hurts
Your love hurts
Give me time to recover

I know you've been
Down this road before
Got one eye on the future
And one eye on the door
Stripping me down to a restless heart
Bringing the night, tearing me apart

Your love hurts
Your love hurts
Better go and find another
Your love hurts
Your love hurts
Give me time to recover
