

N.I.O. (New Information Order)

Robert Wyatt

Privatise next
The air force, then
The police force
Royal Family
Let them be
Private at last
Set them free
Let them go home
Save a bomb on union flags

Privatise the sea
Privatise the wind
Don't just tinker
With unseeded cloud
You got to sell
Weather itself
Set it free
Don't waste good air
Breathing isn't paying its way
