

I Wanted It Too

Roberta Flack

I wanted it too
Just like you
I was hungry
Hungry and blue

You had just the right style
In your smile
Life was really sweet for awhile

I wanted it too
Just like you
You were so good
So good and true

I could still feel your love
In my heart
Just the way it was from the start

Love comes only one time
You must take what you can
We both reached out for it
But it slipped through our hands

I wanted it too
Just like you
I remember
Good things of you

I can still hear your plans
Smiling through
I get chills thinking of you

You showed me the good life
It was real, it was fun
But now that it's over
I'm not sad, 'cause we won

I wanted it too
Just like you
It was so nice
Being with you

Everything has it's time
That's for sure
There was no one like you before

I wanted it too
Just like you
It was so nice
Being with you

Everything has it's time
That's for sure
There was no one like you before

And I wanted it
wished it too
