

# Knowing That We're Made For Each Other

Roberta Flack

It's so vary apparent to me  
The instant that you saw me  
Everyday from the moment that we've met  
And in less the minute took  
To put the mind

You were flying like a butterfly  
Beaming in the sky so high  
Knowing that we are made for each other

Knowing that we are made for each other  
Falling in love is really no bother  
Putting together two of a kind  
Just like a melody and a rhyme

That's my story, seemed like it did to you  
Would you disbelieve  
That you and I should never, never part  
And in just a moment took  
To shake a hand or give a look

We had found a way to eliminate  
All the problems that infiltrated  
Knowing that we are made for each other
