

Love and Let Love

Roberta Flack

Tell me do you believe in love that's true
I do 'cause I have seen what love can do
Sometimes it's like a storm with sunny skies
Sometimes it's paradise

Love is a mystery when it begins
Love is insanity that never ends
Sometimes it's soft and warm, like summer rain
Sometimes it brings you pain

But you gotta love
You know that everybody wants love
(Love and let love)
You know that everybody needs love
(Love and let love)
There is no need to hide
That you are feeling inside when it comes from your heart

Love
You know that everybody wants love
(Love and let love)
You know that everybody needs love
(Love and let love)
There is no need to hide
Don't pass up a chance to love and romance
You can feel in your heart

Give all your love to me and you can bet
You'll have a pleasure trip, you won't forget
Love builds a fire deep in your soul
Love goes and leaves you cold

We know how love can hurt, we both have been
We sworn we'd never fall in love again
But I believe that we should try once more
Love is worth fighting for

But you gotta love
You know that everybody wants love
(Love and let love)
You know that everybody needs love
(Love and let love)
There is no need to hide
That you are feeling inside when it comes from your heart

Love
You know that everybody wants love
(Love and let love)
You know that everybody needs love
(Love and let love)
There is no need to hide
Don't pass up a chance to love and romance
You can feel in your heart

Come on let's fall in love, why should we wait
Love slips away from those who hesitate
It only takes a spark to make a fire

Love will take us higher

But you gotta love

You know that everybody wants love

(Love and let love)

You know that everybody needs love

(Love and let love)

There is no need to hide

Don't pass up a chance to love and romance

You can feel in your heart

Love
