

Natural Thing

Roberta Flack

Yeah

Oh

All of my life I just wanted him to love me
And it happened that way
Now I feel someone's gonna take you from me
And you won't wanna stay
Maybe it's wrong but I just can't shake this feeling
No matter how hard I try
I gotta tell myself it's jealousy revealing
All the things that we hide

'Cause it's a natural thing
What I feel, oh
It's a natural thing
What I feel, oh

You better not laugh 'cause I just won't let my guard down
So you'll understand
I need to be sure do I have all of your devotion?
Am I a part of your plan?
Gotta have trust, a lot of love and dedication
Come together as one
If I have doubts, doesn't mean there's complication
It's part of being in love

'Cause it's a natural thing
What I feel, oh
It's a natural thing
What I feel, oh
It's a natural thing
What I feel, oh

It's just a natural, natural thing

Oh, it's a natural thing
Ooh, what I feel, oh (Is your love really real?)
It's a natural thing (Feel your love)
Oh no, your love really real

It's a natural thing (I won't feel your love)
It's just a natural thing
It's a natural thing (I won't feel)
It's just a natural thing (Your love)
It's a natural thing (I won't feel)
It's just a natural thing (Your love, yeah)
It's a natural thing (I won't feel)
It's just a natural thing (Your love, yeah)
It's a natural thing (I won't feel)
