Something Magic

Roberta Flack

Warm memories, seems like so long ago
So young and so free, how did we ever know?
That time would turn this into something magic
Love is overflowing

Every moment, I'm more in love with you
When I first looked in your eyes, I knew
I could never love anybody but you

When you look at me and wonder what's on my mind
It's so plain to see, the answer's not hard to find
Cause time has turned this into something magic
Love is overflowing

Every moment, I'm more in love in you
When I first looked in your eyes, I knew
I could never love anybody but you

Not another night will I spend gettin' lonely
Not another day, feelin' lost and confused
Took another turn
Never thought I would find what I found in you

It's taken some time but loving is worth the wait
Will I see you smile? It brightens another day, yeah
Cause time has turned this into something magic
Love is overflowing

Every moment, I'm more in love with you
When I first looked in your eyes, I knew
I could never love anybody but you

Woah, come to me lover
Every moment, I'm more in love with you
When I first looked in your eyes, I knew
I could never love anybody but you

But you
Love anybody but you
But you
I'll never love anybody but you
