

Stay With Me

Roberta Flack

Stay with me
Stay with me
Spend just one more day with me
Maybe you can rearrange your plans
I know there whole new world you found
And it's true that love you found
But please don't make me stand here
Just standing on the ground

Stay with me
Stay with me
Spend just one more night with me
Maybe you can barely see it in this way
If I could spend one night with you
It would last my whole life through
Of all the nights I've held you close
Tonight is the night I need you most

Stay
I never thought that I would find someone so beautiful
Never thought there'd be a love like this
And if you know you are gonna loose someone so beautiful
The rest of your life, that's an awful lot to live
