

## Anniversary

Robin Gibb

Your faith was always in me  
And through the years we've grown  
The many times you rescued me  
God alone has known

And from the ties that bind us  
And all the vows we make  
The bond we got between us  
No force on Earth can break

This is our anniversary  
I couldn't make it without you  
This is our anniversary  
I couldn't take it without you  
I'm with my back against the wall  
You used your love to catch me  
Falling on our anniversary

The one thing time has told me  
That life goes by so fast  
And babe, how quick the present  
Would soon become the past

And you are my religion  
And I could not repay  
The power of the universe  
Not you will I betray

You have shown me the meaning of life  
And I know that total devotion  
Is only a dream

Let me keep on dreaming tonight  
We're rising to the occasion  
By stand together forever  
We see soul to soul

This is our anniversary  
I couldn't fake it without you  
When I was left out in the cold  
You used your love to catch me  
Falling on our anniversary
