

Change the World

Robin Mark

Deep within my heart,
There's a fire burning
Passion for Your name and Your renown
To see the Nations come
Humbled hearts returning
To the only One who gives them life.

You can change their world
You can change their world
I know you can do all things, You can change the world

You have shown us what is good
And what our God requires
Mercy, Justice and Humility
So touch our hearts and lips
With flaming tongues of fire
That all may hear and know our God who saves

You can change the world
You can change the world
I know you can do all things, You can change the world
I can change the world, I can change the world
In Him I can do all things, I can change the world.
