

Better Than That

Robin Packalen

Talk like an angel
Like you got me figured out
Tell me you're sorry
I know what it's all about

Not you busy fixing burning bridges, oh yeah
Don't you know, don't you know that
I'm better than that

I was there whenever you needed me
You threw it all away just like that
Now back already begging on your knees
Really think that I'm taking it back
Oh how you gotta be kidding me
I've no part in your fantasy
Now back already begging on your knees

Don't you know that I'm better than that
Don't you know that I'm better than that
Don't you know that I'm better than that
Don't you know that I'm better than that

Tell me you're faithful
Don't stop I wanna hear it all
I keep on playing along
Like I don't know what you've done

Now look at you
Busy fixing burning bridges, oh yeah
Don't you know, don't you know that
I'm better than that

I was there whenever you needed me
You threw it all away just like that
Now back already begging on your knees
Really think that I'm taking you back
Oh how you gotta be kidding me
I've no part in your fantasy
Now back already begging on your knees

Don't you know that I'm better than that
Did you know that I'm better than that
Don't you know that I'm better than that

I was there whenever you needed me
You threw it all away just like that
Now back already begging on your knees
Really think that I'm taking you back
Oh how you gotta be kidding me
I've no part in your fantasy
Now back already begging on your knees

Don't you know that I'm better than
