

Goddess

Robin Packalen

(Oh no, no yeah)

Yeah, when I'm with you feelin' like I'm flyin' first class
Steppin' on the gas, yeah, I wanna drive fast
Hands up, I'm feelin' loved just a little bit
So hot I wanna, I wanna little bit
We're skipping every line, straight to the front line
We're drippin' on a different level, leveragin' so high
Hands up and leave the rest in the past
Every song I'm singing now sounding like jazz

Put your hands all over me
I let you take control of me
I can't help it, baby, you make me obsessed
Shine your light all over me
You got me saying, "I believe"
I can't help it, I confess

You're a goddess (Woo)
I'm only human
Bless me with that body, I'm in heaven
You're a goddess (Oh)
My religion
Bless me, know I'll worship you forever (Yeah, bless me)

You step into the room like you own it
Everybody knows it
And you didn't even notice
Heads up, whenever you turn around, yeah
So hot, that's what I'm talking about, yeah
I don't worry 'bout making plans
Ain't worried 'bout cash
I already got more than I could ask for, ha
I got more than I could ask for, haha
I got more than I could ask for

So put your hands all over me
I let you take control of me (Control of me)
I can't help it, baby, you make me obsessed
Shine your light all over me
You got me saying, "I believe" (Never believed, baby)
I can't help it, I confess

You're a goddess (Woo)
I'm only human
Bless me with that body, I'm in heaven
You're a goddess
My religion
Bless me, know I'll worship you forever (Mmm)

You're me Aphrodite
Hands up, let me emphasize it
I'm about to fly (I'm about to fly)
So come on, baby, be right with me
And one, look, I'm mesmerized
Don't stop, I'll give it all tonight
I'm about to fly

So, baby, I confess

Yeah, you're a goddess

I'm only human

Bless me with that body, I'm in heaven

You're a goddess

My religion

Bless me, know I'll worship you forever

You're a goddess

(Ooh, you're a goddess, yeah)

Bless me with that body, I'm in heaven

You're a goddess (You're a goddess, mesmerized)

Bless me, know I'll worship you forever

You're me Aphrodite

Hands up, let me emphasize it

I'm about to fly (I'm about to fly)

So come on baby, be right with me

And one, look I'm mesmerized

Don't stop, I'll give it all tonight

I'm about to fly

So, baby, I confess

Yeah, you're a goddess
